Claims:

P. 10, Lines 2-3: change "A method of treating the lung with lysozyme that comprises administering this protein intratracheally" to "A method of treating the lung of a patient with lysozyme that comprises intratracheally administering said lysozyme to the lung of said patient."

P. 10, Lines 6-7: delete "such as eggs"

P. 10, Lines 8-9: delete "such as fermentation"

P. 10, Line 10-11: change "A method of treating a respiratory disorder that comprises intratracheally administering to a mammal an effective amount of lysozyme" to "A method of treating a respiratory disorder that comprises intratracheally administering to the lung of a mammal an effective amount of lysozyme."

P. 10, Lines 23-24: delete "such as DMSO, an alcohol, or water"

GENERAL REMARKS

- 1) The Examiner recommends certain modifications of the claims for the purpose of improving their clarity.

Response:

Claim 1 has been modified as suggested by the Examiner. In addition the term "such as" has been deleted from claims 3, 4, and 15. These changes are listed above as amendments to the application.
